VERBAL DESCRIPTION:

Stamp fragment, rectangular in shape. None of the edges are notched. The design is a clay monkey motif - monkeys are connected by their hands & feet - tails float free. The 2 exterior monkeys face right, while the middle monkey faces left. Between the left & center monkey, there is a raised piece of clay. The monkeys are not uniform in their features. The center & right monkeys appear to be a little bit bent. There is also one being on the back side of the stamp. The handle is directly opposite the middle monkey. Handle is conical shape. Edges of the stamp appear to have been cut flat. No paint, or slip. Handle thickness: 1.6cm, handle length: 2.0cm.
